

# ROCKFORD CORPORATION

---

**Rockford Corporation**, is a high-performance audio manufacturer located in Tempe, AZ looking for a qualified individual to intern as a Loudspeaker Test Technician. This is an R&D position and we're looking for someone with a technical background who has a passion for audio. This is a part time internship and will average approximately 20 – 29 hours per week.

**JOB TITLE: Loudspeaker Test Technician (Intern)**

This role is responsible for taking acoustic and electrical measurements using industry leading test equipment. It also requires compiling test results and creating reports. Day to day you will be working closely with the Loudspeaker Engineering and NPD teams, providing valuable reports and feedback that will drive decisions regarding new and existing products.

**Requirements:**

- Strong knowledge of audio and acoustics
- Comfortable working on multiple projects in a fast paced, deadline driven environment
- Experience with basic test equipment (DMM, Oscilloscope...etc.)
- A solid understanding of proper, disciplined testing methodology

**What You Will Be Doing:**

- Take measurements using state of the art test equipment
- Compile results and create objective reports
- Work with the engineering team to ensure Rockford products meet the target requirements

**Qualifications:**

- A team player with a positive attitude
- Excellent communication, grammar and people skills
- Proficiency in MS Word and Excel
- A background in electrical engineering or current student preferred

**Interested applicants should send their resume and cover letter to [jobs@rockfordcorp.com](mailto:jobs@rockfordcorp.com)**

Successful completion of drug test and background check are requirements for employment. This position is an Internship, therefore, no benefits apply.
